---

As we discussed Eric...I'm forwarding the e-mail transmitting DEQ's comments to the Preliminary Design Report we discussed earlier this afternoon.

It was good talking with you today. Given your previous involvement in the project and familiarity with the site, your thoughts and feedback are welcome and appreciated.

Feel free to call with questions regarding our comments letter or if you need additional information.

Dana

**Subject:** NW Natural, Preliminary Design Report Comments Letter

Good afternoon Bob.

DEQ reviewed the "Preliminary Design Report – Groundwater Source Control, NW Natural Gasco Site" (Preliminary Design Report). Our comments letter is attached.

<<Lfnl-NWNG-PrelimDesignReport.doc>>

A signed hard copy of the letter will be sent to you via regular mail early next week.

The Preliminary Design Report was prepared to: 1) present the status of source control measures (SCMs) planning and design following a series meetings between NW Natural and DEQ convened since early April; and 2) provide the basis for moving forward into SCMs design.

DEQ is not requesting the Preliminary Design Report to be revised and resubmitted. However, we identified a number of items for NW Natural to respond to within specified timeframes. DEQ also expects NW Natural to incorporate the comments into SCMs planning and design studies and/or the Interim Design Report as appropriate.

As you know I will be out of the office until September 8th, and anticipate addressing questions regarding the attachment as soon as I return to the office. However, if questions regarding technical items come up, contact Tom Gainer (503/229-5326) for engineering issues. Other questions should be directed to Henning Larsen (503/229/5527). Substantive questions or comments should wait until I'm back in the office.
